Hi Robert and Mike,

Please find attached, for your review, the revised CFAC CIP draft text. You'll notice that the two graphics examples (Community Concerns and Tools for Community Involvement) are also attached here and mentioned in the text. These graphics will be updated to fit the needs of this CIP once the rest of the text is finalized.

Also attached is a draft of the graphical Superfund Process Diagram that we discussed on our last call. We included it as an attachment here, rather than inserting it into the draft text, due to it being in landscape format. Robert, the icons in this table were created by Skeo and as such would be available for your future use as well.

We look forward to hearing your feedback.

Best,

Blair
